

The natural Ökoron®
hygiene concept

FOODINDUSTRY

- No AOX entry during cleaning and disinfection
- Minimal use of hazardous substances
- Dermatologically tested cleaners
- Easily biodegradable

Organic thoughts

The implementation of the basic EC Organic Regulation (EC) No. 834/2007 in manufacturing, production and food circulation founders when it comes to the use of conventional cleaners and detergents. While these do confirm to the current Detergents & Cleaners Act, they are still hazardous substances due to their classifications:

Hazardous substance labels	Possible hazards
 GHS 05 / Caustic effect	H314 Causes severe skin burns and eye damage. H318 Causes serious eye damage. H290 May be corrosive to metals.
 GHS 09 / Environment	H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H411 Toxi to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.

The **FINK TEC Ökoron®**- product range does not require **any special labels**, and is based on **100% natural raw materials**.

No special labels:

Ökoron® SR
Art.-No.: 17900

Ökoron® - Bio Kraft
Art.-No.: 17908
(Bio Power)

Ökoron® - Sanitärreiniger
Art.-No.: 17910
(Sanitary cleaner)

Organic thoughts

The **FINK TEC Ökoron®**- product range mirrors the requirements of the basic EC Organic Regulation (EC) No. 834/2007, creating a perfectly organic hygiene concept:

Saving resources

Respecting natural systems and cycles.

Sustainable choice of raw materials

Releases waste water

No risks to people and planet

Organic industrial cleaning

Product	Brief description	Technology	Application parameter
Ökoron® SR	Ökoron® SR is a cleaner for all water-resistant surfaces in the food industry. Ökoron® SR removes the most persistent dirt with its excellent foam stability and long adhesion. Outstanding material compatibility throughout the business. Ökoron® SR is weakly acidic, meaning that no acidic countercleaning is necessary.	 Foam  Spray  manual cleaning	 Dosage: 1,0 – 5,0 %  Cleaning temperature: 20 – 55°C  Application time: ca. 15 – 20 minutes
Ökoron® CIP	Ökoron® CIP is a non-foaming, environmentally friendly concentrated cleaner for all washable surfaces. The distinctive cleaning abilities of Ökoron® CIP are a result of its biological basis. Fats and oils are dissolved and emulsified through its organic raw material base. Ökoron® CIP breaks protein and other organic dirt down into water soluble compounds.	 E2 crate cleaning  Dips  Floor cleaning	 Dosage: 0,3 – 5,0 % (100 – 500 g / 10ltr)  Cleaning temperature: 15 – 60°C  Application time: ca. 5 – 20 minutes

Ökoron® SR is renowned as a unique industrial foam cleaner with the **Ecolabel!**
The EU environmental sign for ecologically valuable products.

EU Eco label : DE/20/157

Organic maintenance cleaning

Product	Brief description	Technology	Application parameter
Ökoron® Bio Kraft	Ökoron® Bio Kraft is a concentrated whey-based cleaner, making it particularly environmentally compatible. The material-saving ingredients remove all daily occurring dirt, such as pigments, fats and oils. Inorganic deposits (e.g. lime) are also effortlessly dissolved, thanks to the lightly acidic character of the cleaner.	 Manual cleaning  window cleaning  Wiping	 Dosage: 2,0 – 100 %  Cleaning temperature: 20 – 45°C  Application time: ca. 5 – 20 minutes
Ökoron® Sanitärreiniger	Ökoron® Sanitärreiniger is a concentrated whey and fruit acid-based cleaner, making it particularly environmentally compatible. The material-saving ingredients help remove lime and urine scale deposits and pigment stains from all washable surfaces. Ökoron® Sanitärreiniger can be easily used on vertical surfaces, thanks to its viscous composition and notable wetting force.	 Sanitary cleaning  Toilet cleaning  Floor cleaning	 Dosage: 0,3 – 5,0 %  Cleaning temperature: 15 – 60°C  Application time: ca. 5 – 20 minutes
